

# 1000 SERIES

## CUSTOMER: PEAVEY PRODUCTS

ConAgra Foods, dba The Peavey Company in St. Paul Minnesota has purchased a 1000 Series, Model 7264 E-Crane® for use at the at Red Rock Terminal.

The crane was installed in February 2001 by ECI- USA, Indusign, and Crane & Machinery, the regional service dealer. This Equilibrium Crane (E-Crane®) is a mobile unit mounted on crawler tracks.

The main hydraulic pumps are electrically driven with power provided by a Caterpillar Diesel Generator Set. The mobile crane allows for operations in several locations around the Red Rock Terminal. According to Rick Krause, Terminal Superintendent;

Type:	7264 CR-D
Location:	St.Paul, Minnesota, MN, USA
Application:	Off-loading bulk material from a barge
Mount:	Crawler Mounted
Lifting Capacity:	9.1 tons
Reach:	26.4 m
Attachment (Grab):	Heavy Materials: 1.7 m <sup>3</sup> grab / Fertilizer: 5.4 m <sup>3</sup> grab / Shank Hook: SWL22 Ton
Power Source:	CAT Genset 3406 TA

“*The applications for our E-Crane® are endless...*”

“The applications for our E-Crane® are endless...there are lots of things that we can do with this machine to improve our operation.” “We could be handling rebar on a custom spreader on Monday and at the

barge dock offloading fertilizer on Tuesday.” The day operator, Ken says, “The E-Crane® is a huge improvement for barge offloading compared to the previous lattice boom machine we had.”
